

Introduction:

Practice: Book 13 test 2

The chart below shows the percentage of households in owned and rented accommodation in England and Wales between 1918 and 2011.

Households owning and renting accommodation
in England and Wales 1918 to 2011

1. The diagram illustrates what proportion of households were in rented and owned accommodation in England and Wales from 1918 to 2011.
2. The bar chart illustrates what proportion of households owned and ~~accommodated~~ rented their accommodation in England and Wales from 1918 to 2011.
3. The bar chart illustrates what proportion of households owned and rented their accommodation in England and Wales from 1918 to 2011.
4. The bar chart shows what proportion of households were/lived in owned and rented accommodation in England and Wales from 1918 to 2011.

Practice: Swiss birth & death rates (p.32)

The chart below gives information about birth and death rates in Switzerland from 1980 to 2030 according to United Nations statistics.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Write at least 150 words.

Switzerland birth and death rates 1980-2030

1. The bar chart illustrates changes in the number of births and deaths in Switzerland since between 1980 and 2020, with predictions ~~until~~ for 2030.
2. The bar chart illustrates birth and death rates in Switzerland ~~from~~ between 1980 ~~to~~ and 2020, along with predictions for 2030.
3. The bar chart provides data about birth and death rates in Switzerland ~~since~~ between 1980 and 2020, with predictions ~~until~~ for 2030.
4. The chart illustrates the rates of birth and death in Switzerland between 1980 and 2020, with predictions ~~until~~ for 2030.

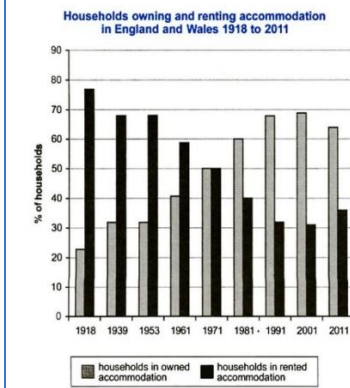

The bar chart illustrates how many people were born and died in Switzerland between 1980 and 2020...

The bar chart illustrates how the rates of birth and death changed in Switzerland between 1980 and 2020...

Overview:

Practice: Book 13 test 2

The chart below shows the percentage of households in owned and rented accommodation in England and Wales between 1918 and 2011.

Analysis notes:

- rented 1st initially, overtaken 1971
- rented decreased
- owned increased at similar rates

The bar chart illustrates what proportion of households owned and rented their accommodation in England and Wales from 1918 to 2011.

1. Overall, although rented accommodations ~~s ranks~~ ranked first initially, it ~~is~~ was overtaken by ~~the~~ owned accommodations in 1971. The former decreased dramatically, while the latter increased at the same rate.

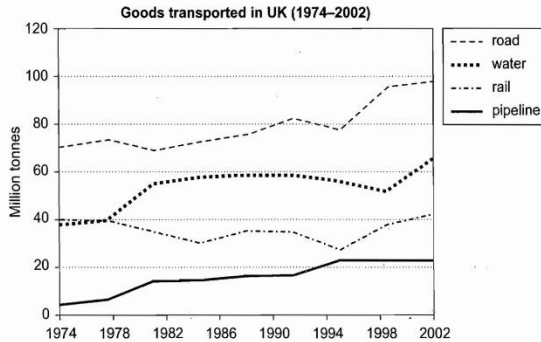

2. ~~Overall~~, although ~~households in~~ rented accommodation ranked first initially, ~~and it~~ decreased significantly, ~~it and~~ was outstripped by ~~households in~~ owned accommodation midway through the period, as the latter increased at the same rate.

Body:

The graph below shows the quantities of goods transported in the UK between 1974 and 2002 by four different modes of transport.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Write at least 150 words.

Notes:

Road: initial fluc, rise steadily, small drop, suddenly increase

Pipeline: steady increase until 1996 > remain

Examples of more detailed notes:

- **Road:** 70m, fluc until 1980, steadily rise until 1992, small drop, suddenly increase to almost 100m
- **Pipeline:** almost 5, gradually increase until 1995 to 20, remain stable

Example: Body paragraph 3

- Pipeline started at almost 5m, and gradually increased until 1995, after which it remained stable at just over 20m.
- The figure for pipeline stood at 5m in 1974, showing a steady increase until 1996, after which it remained stable at just above 20m.

Practice: Body Paragraph 1

1. Road ranked first at 99.65 million (65m) tonnes (99m) in 2002/1974. ~~The figure for road started at 65m in 1974 with some fluctuations and fluctuated~~ until 1980. Then it steadily rose until 1992 ~~at when it reached~~ 81m. ~~With-After~~ a small drop, it suddenly increased to almost 100m in 2002.
2. Road ranked first ~~throughout the period and stood~~ at 65 million (65m) tonnes in 1974, showing some ~~e initial~~ fluctuations until 1982. It rose steadily ~~until 1992 at to~~ 81m in 1992, after which there ~~e~~ was a small decrease in 1996. ~~Then- before~~ the figure increased sharply ~~at to~~ 98m in 2002, ~~following which it maintained the same level at 99.~~
3. Road was the most used kind of transport. It started at 70 million (70m) tonnes ~~(70)~~, ~~with some~~ fluctuating until 1980. Then it gradually rose until 1992 to ~~almost approximately~~ 80m ~~m~~. ~~With-After~~ a small drop, it suddenly increased to almost ~~in~~ 100m in 2002.
