

Comparison Structures

A)

Use of Commas and Spacing:

There is no difference between dumping at sea and chemical treatment at 8% each.

There was little difference between the figures for Turkey, Spain, and Ireland at 6.63%, 6.51%, and 6.43%, respectively.

There was little difference between the figures for Turkey, Spain and Ireland at 6.63%, 6.51% and 6.43%, respectively.

There was little difference between the figures for Turkey, Spain and Ireland at 6.63%, 6.51% and 6.43% respectively.

There was little difference between Italy and Sweden (16 and 15, respectively).

Referencing & Substitution:

There was a significant difference between **the percentage of consumer expenditure in/on** food, drinks and tobacco in Turkey and Ireland on the one hand, and Spain, Italy and Sweden on the other.

There was a significant difference between **the figures for** food, drinks and tobacco in Turkey and Ireland on the one hand, and Spain, Italy and Sweden on the other.

There was a significant difference in food, drinks and tobacco between **the figures for** Turkey and Ireland on the one hand, and Spain, Italy and Sweden on the other.

There was a significant difference between **the figures for** food, drinks and tobacco in Turkey and Ireland on the one hand, and **those for** Spain, Italy and Sweden on the other.

There is a significant difference in Korea between **the share of** recycling on the one hand, and **those of** underground and incineration on the other.

1. In Korea there is a wide disparity between Recycling on the one hand, and ~~Incineration and U~~nderground and incineration on the other.

2. In Sweden, there is a wide disparity between underground on the one hand, and recycling and incineration on the other. ✓

3. There is a little difference between recycling and incineration (25% and 20%, respectively).

4. ~~In United Kingdom, t~~here is no difference between chemical treatment and dumpling at sea (8% each).

Lists:

(82% and 8% and 8% and 2%, respectively) ×

(82%, 8%, 8% and 2%, respectively) ✓

B1)

1. Recycling is 69%, while incineration is smaller by a wide margin g at 9%.
 2. Recycling stands s first with 69%, while incineration is smaller by a considerable 60%.
 3. ~~Undergroung~~ Underground is 22%, which is larhger than incineration by a narrow margin (9%).
-

B2)

1. Recycling is /accounts for/contributes 69%, while incineration is marginally-considerably smaller at 9%, ranking last.
 2. The share of Recycling is 25%, which is slightly bigger-larger than incineration at 20%, as the latter ranked last.
-

Review: A, B1 & B2)

Note 1:

Underground >> recycling, incineration

Underground 1st 55%

25 & 20: similar

[Incineration last]

Note 2:

Underground 1st 55%

25 significantly smaller

20 a little smaller, last

In Sweden, there is a wide disparity between underground on the one hand, and recycling and incineration on the other -and, with underground stands-standing first (55%). Recycling is 25%, which is slightly larger than incineration at 20%, as the latter ranked last.

B3)

1. In terms of life expectancy at birth, Canada was almost the same as Japan at 76 and 78, respectively.

→ In terms of life expectancy at birth, Japan ranked first at 78 years, while Canada was almost as high (76).

Or

In terms of life expectancy at birth, Japan ranked first at 78 years, which was approximately as high as Canada (76).

2. In terms of adult literacy rate, Canada and Japan were the same at 99%, ranking first together.

B4)

1. In the Republic of Korea, recycling ~~is~~ is-ranks first at 69%, which is approximately twice as large as underground (22%).

Or: In the Republic of Korea, recycling ranks first at 69%, while underground is almost 1/3 as large at 22%.

Natural gas exports: 2020**Iran: 8 million m³ | Russia: 24 million m³**

Russia's exports **were** significantly higher than Iran's at 24 million (24m) and 8m m³, respectively.

Russia's exports **were** three times as high as Iran's at 24 million (24m) and 8m m³, respectively.

Russia exported significantly/considerably/substantially/far/much more natural gas than Iran at 24 million (24m) and 8m m³ respectively.

Iran exported much less gas [than Russia] ...

Russia ranked first with 24 million m³, while Iran exported considerably less gas (8 million).

Russia ranked first with 24 million m³, while Iran exported 16 million less gas. IF NEEDS CALCULATOR → NOT GOOD

Iran exported 1/3 as much gas as Russia [did].

Russia ranked first with 24 million m³, while Iran exported 1/3 as much gas.

Russia exported 3 times as much gas as Iran, ranking first.

Russia exported 3 times as much gas as Iran, ranking first with 24 million m³

Russia ranked first with 24 million m³, exporting 3 times as much gas as Iran.

Ranking first with 24 million m³, Russia exported 3 times as much gas as Iran.

Mobile phones: production per month**Samsung: 100000 | Sony: 50000**

Samsung manufactures s twice as many mobile phones as sSony, ranking first with 100000 per month.
