

Introduction:

Practice: Book 13 test 2

The chart below shows the percentage of households in owned and rented accommodation in England and Wales between 1918 and 2011.

Households owning and renting accommodation
in England and Wales 1918 to 2011

The line graph illustrates ~~wha-what~~ proportion of ~~housholds-households~~ lived in owned and rented accommodation in England and ~~wW~~ales from 1918 to 2011.

Practice: Book 18 test 1

The graph below gives information about the percentage of the population in four Asian countries living in cities from 1970 to 2020, with predictions for 2030 and 2040.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

1. The line graph illustrates what proportion of the population in four countries lived in cities /urban areas between 1978 and 2020, with predictions for 2030 and 2040.
 2. The graph illustrates what proportion of the population in four countries lived in cities between 1978 and 2020, as well as providing predictions for 2030 and 2040 /until 2040.
-

Practice: Book 15 test 2

The graph below shows the number of tourists visiting a particular Caribbean island between 2010 and 2017.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

The line graph illustrates how many tourists visited a particular ~~caribbean~~ Caribbean island from 2010 to 2017.

Practice: Swiss birth & death rates (p.32)

The chart below gives information about birth and death rates in Switzerland from 1980 to 2030 according to United Nations statistics.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Write at least 150 words.

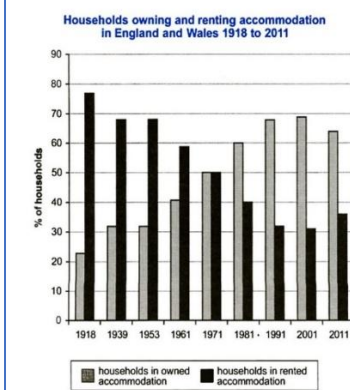

Switzerland birth and death rates 1980-2030

The line chart ~~illustrated~~ illustrates how many births and deaths ~~occurred~~ occurred in Switzerland ~~since 2020~~ between 1980 and 2020, ~~for along with~~ predictions ~~until for~~ 2030.

Overview:

Practice: Book 13 test 2

The chart below shows the percentage of households in owned and rented accommodation in England and Wales between 1918 and 2011.

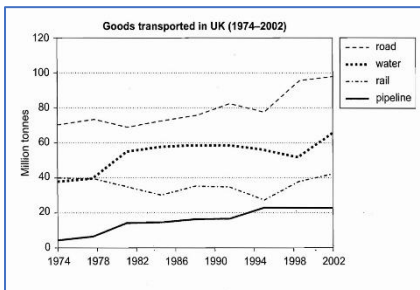

Analysis notes:

- rented decrease
- owned increase: similar rate
- rent 1st initially > overtaken 1971

The line graph illustrates what proportion of households lived in owned and rented accommodation in England and Wales from 1918 to 2011.

Overall, although ranking first initially, households in rented accommodation the latter were overtaken by those in owned accommodation the former by in 1971. Both figures changed, albeit at a similar rate. The proportion of households in rented accommodation The figure for rented has decreased over the period, while that for owned rose at a similar rate.

Practice: Book 8 test 4

Analysis notes:

- 3 increased at similar rates
- rail: fluctuate
- Road 1st [pipeline last]

The line graph illustrates the amount of goods transported in the UK via four different modes of transport from 1974 to 2002. Overall, road accounted for the largest quantity of goods throughout the period. The figures for road, water and pipeline all increased at similar rates, whereas rail fluctuated over the period.

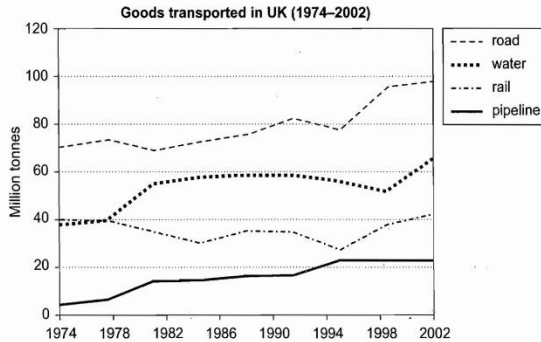

It increased along with water and pipeline at similar rates, whereas...

Body:

The graph below shows the quantities of goods transported in the UK between 1974 and 2002 by four different modes of transport.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Write at least 150 words.

Notes:

Road: Road: 70 m at first, fluctuation between 1974-82, rising until 1992, drop in 1995, rise almost 100

Pipeline: 5m, increase until 1995 22m, stable

Example: Body paragraph 3

- The figure for pipeline stood at 5m in 1974 and increased gradually until 1995, when it levelled off at 22m.
- The figure for pipeline stood at 5m in 1974 and increased gradually until 1995, after which it remained stable at 22m.
- The figure for pipeline stood at 5m in 1974, increasing gradually until 1995, when it levelled off at 22m.
- Standing at 5m in 1974, the figure for pipeline increased gradually until 1995, after which it remained stable at 22m.

Practice: Body Paragraph 1

The figure for road stood at 70 million (70m) tonnes and fluctuated between 1974 and 1982. It increased slightly to about 80m in 1992, followed by a slight drop in 1995. It then rose again, reaching almost 100m in 2002.
