Protect the Environment: now: environmental problems e.g. air pollution, global warming getting worse > people gaining information > future: everyone aware and concerned > try to reduce deforestation > fewer trees cut > reduce need for paper > stop buying prints

1. In addition, people will try to protect the environment. ~~t~~Today environmental problems such as air pollution and global warming ~~is~~ are getting worse and people are getting information about ~~it~~this/them. In the future everyone will be aware of this issue and they will try to decrease deforestation by reducing ~~tree cuts~~the number of trees cut down. Therefore, they will reduce the need for paper ~~will be decreased and they will~~ and stop purchasing printed books ~~a~~ and newspapers.

---

2. Finally, protecting the environment ~~has~~ will become a public concern. While environmental problems such as air pollution and global warming are becoming increasingly severe, people are gaining more knowledge about ~~these issues~~them. In the future, as ~~their awareness increases~~everyone becomes aware and concerned, they will try to reduce deforestation by cutting down fewer trees. Therefore, they will stop buying printed books and newspapers, which will reduce the demand for paper.

Commented [ET1]: As I said in the class and in the previous feedback, you must begin by presenting the main idea.

Commented [ET2]: Informal →***problems…are worsening/escalating***

Commented [ET3]: Informal → ***public awareness of them is rising/growing***

Commented [ET4]: You can also use ***reduce tree logging***.

Commented [ET5]: The focus of the sentences before and after this is on people, so it is not logical to suddenly switch to the passive here.

Commented [ET6]: I explained this in the previous feedback.

3. Besides, protecting the environment will encourage people to use online materials.

Nowadays, environmental problems such as air pollution and global warming are major concerns, and people are becoming increasingly aware of ~~these issues~~them. In the future, when all individuals ~~will be~~ are ~~more~~ concerned about the environment, they ~~tend to~~ will try to reduce deforestation by cutting down fewer trees and reducing paper consumption. As a result, the demand for paper will decline and people will switch to digital alternatives.

Commented [ET7]: Time clauses do not use the future tense.
