1. In terms of annual income per person ~~($ Us)~~, there was a significant difference between Canada and Japan on the one hand, and Peru~~,~~ and Angola on the other. The figure for Japan ranked first at $15760, while Canada was smaller by a narrow margin at $11100, ranking second. Peru was $160, while Angola was marginally smaller at $130, ranking last.

Commented [ET1]: We report the unit with the figures.

Commented [ET2]: Considering the other figures in this range, this margin does not seem to be narrow.

---

2. In adult literacy rate, the figures for Canada and Japan stood first together/jointly at 99% each. ~~The share of~~ Peru was 68%, which was significantly larger than Angola at 34%, ~~ranking~~ which ranked last.

Commented [ET3]: These are rates, not shares.

Commented [ET4]: The subjects are not the same. The subject of the previous clause is WHICH, which refers to 68%.
